Memo to File

From:

Subject: Purchase Order No. 55594E to Bell Reproductions Company,
Fort Worth, Texas (White Printer)

Need

To fulfill the needs of the program, it had been determined that a White Print Machine would be required. This need was concurred in by the customer in its contract with Convair.

Procurement

The specifications for this machine to meet were designated by Convair as FWIF-ADT-16-0-24-0-189, dated 22 January 1959, except that the power shall be 208 volts, 60 cycles, single phase. A like machine meeting the same specification was purchased by Convair under its Facilities Contract No. under Purchase Order No. 113668C, dated 10 March 1959. The award at that time was to Bell Reproduction Company, Fort Worth, Texas, as the bidder offering a machine satisfactorily meeting Convair's specification and having certain added features. The bids were:

STATINTL

Tarrant Count Reproduction Co.	\$4250.00
L. L. Ridgway, Inc.	5195.00
Bell Reproduction	5269.00
C. F. Pease Co.	5275.00
L. L. Ridgway, Inc.	6445.00

Tarrant County's machine was 75 watt at 40 FPM. This does not meet specification requirements calling for 100 watt at 75 FPM.

The Ridgway machine was FOB Fort Worth with 2% discount. Add to base price of the Ridgway machine \$200.00 for uni-directional separator less discount yields a delivered price of \$5287.10. The Bell machine had, counting transportation and discount, a delivered price of \$5327.47. The difference of \$40.37 becomes inconsequential since the following features are gained for that sum:

- (1) New type of syncro-flo automatic ammonia handling resulting in faster printing.
- (2) Automatic unidirectional separator permitting prints on both sides prior to developing.
- (3) Cool running cylinder required for illustration work where fixtures are used on tracings.
- (4) The machine will handle 45" rather than 42" paper.
- (5) Simple operation with women operators being used for like machines in Tooling Department.
- (6) Prints faster than other kinds of machines according to Convair's experience.

- 2 -

It must also be noted that this make of machine is used in other Convair Departments resulting in the advantage of uniform servicing and free interchange of operators.

Conclusion

Considering the above advantages, Convair purchased the Whiteprint machine offered by Bell Reproduction.

1. **Packing and Shipment:** Deliveries shall be made as specified, without charge for boxing, crating, carting or storage unless otherwise specified; and material shall be suitably packed to secure lowest transportation costs, and in accordance with the requirements of common carriers. Buyer's purchase order numbers and symbols must be plainly marked on all invoices, packages, bills of lading and shipping orders. Packing list shall accompany each box or package shipment showing Buyer's purchase order number and symbol, item number and description of materials. Buyer's count or weight shall be final and conclusive on shipments not accompanied by packing lists. Shipping receipts or bills of lading shall be sent to Buyer's Traffic Department on date material is shipped. Goods shall be packed to assure against damage from weather or transportation. Invoices shall be mailed in triplicate to the attention of Buyer's Accounting Department immediately after each shipment.

2. **Warranty:** Seller warrants that all material and work covered by this purchase order will conform to applicable specifications, drawings, samples and/or other descriptions given and will be merchantable and free from defect in workmanship and material. Unless the materials, or articles covered by this purchase order are manufactured completely to detailed design furnished by Buyer, Seller warrants design. The warranties of the Seller, together with its service warranties and guarantees, shall run to the Buyer and/or its customers.

3. **Inspection:** If a specification number is noted for the articles ordered, Seller shall, upon request, furnish a notarized report confirming manufacture of the articles according to specification. This report shall bear Buyer's purchase order number and a description of the articles shipped, and must be received prior to or at the time of arrival of the articles unless otherwise agreed to by the Buyer.

Seller shall provide a complete inspection system, satisfactory to Buyer, covering the inspection of all materials, fabricating methods, jigs, fixtures, dies and finished articles.

All articles ordered will be subject to final inspection and approval by Buyer after delivery, notwithstanding prior payment, it being expressly agreed that payment shall not constitute final acceptance. Buyer may reject any article which contains defective material or workmanship or does not conform to specifications or samples. Rejected articles may be returned at Seller's risk and expense at the full invoice price plus applicable incoming transportation charges, if any. No replacement of rejected articles shall be made unless specified by Buyer.

4. **Delivery:** Except as hereinafter specified, delivery shall be strictly in accordance with the delivery schedule of this purchase order. If Seller's deliveries fail to meet such schedule with the result that Buyer elects to call upon Seller for express shipments, Seller will allow the difference between freight and express rates. Parts fabricated beyond Buyer's releases are at Seller's risk. Invoices covering material shipped in advance of specifications will be paid unless otherwise agreed upon their normal maturity after the date specified for delivery.

Notwithstanding the provisions of the preceding paragraph, neither party shall be liable for delays or defaults due to causes beyond its control and without its fault or negligence; provided, however, that when the Seller has reason to believe that deliveries will not be made as scheduled, written notice setting forth the cause of the anticipated delay shall be given immediately to Buyer.

5. **Statement of Account:** A statement of account must be sent to Buyer's Accounting Department as soon as possible after the first of each month. Delays in receiving statement or invoice, and also errors and omissions on statement, will be considered just cause for withholding settlement without losing discount privilege.

6. Special Tools:

(a) Unless otherwise herein agreed, special dies, tools and patterns used in the manufacture of the articles herein ordered shall be furnished by and at the expense of Seller, shall be kept in good conditions and, when necessary, shall be replaced by Seller without expense to Buyer.

(b) Upon agreement of the parties Buyer may at any time reimburse Seller for the cost of the whole or any part of said special dies, tools and patterns and replacements, and become the owner and entitled to the possession of same.

(c) If the price stated on the face hereof includes separately the cost of any dies, tools and/or patterns acquired by Seller for the purpose of filling this purchase order, such dies, tools and/or patterns shall become the property of Buyer and Seller shall, to the extent feasible, identify said property as Buyer directs. When this purchase order has been completed, such tools shall be disposed of as Buyer may direct.

7. **Buyer Owned or Furnished Material:** Seller assumes complete liability for any Buyer-owned or Buyer-furnished tooling, articles or materials unless furnished to Seller on a charge basis in connection with this purchase order and Seller agrees to pay for all such tooling, articles or materials spoiled by it or not otherwise satisfactorily accounted for, subject however to the provisions of Article (i) in event Government Contract number is shown on the face of this purchase order. Title to the aforesaid Buyer-owned or Buyer-furnished tooling, articles or materials shall at all times remain in Buyer.

8. **Insurance:** Seller agrees, if and when requested by Buyer, to procure a policy or policies of insurance in form satisfactory to the Buyer, insuring all property on Seller's premises owned by Buyer against loss or damage resulting from fire (including extended coverage), malicious mischief and vandalism. Satisfactory evidence of procurement of such insurance shall be submitted to Buyer within a reasonable period of time after such request by Buyer.

9. **Changes:** If the articles to be furnished hereunder are to be specifically manufactured in accordance with Buyer's drawings and specifications Buyer may by written order make changes in drawings or specifications. Any difference in price or time for performance resulting from such change will be equitably adjusted and the purchase order modified in writing accordingly.

10. **Advertising:** Seller shall not, without first obtaining the written consent of Buyer, in any manner advertise or publish the fact that Seller has furnished or contracted to furnish to Buyer the articles herein mentioned.

11. **Patent Indemnity:** Seller agrees to indemnify Buyer and its customers against any liability, including costs and expenses, for or by reason of any actual or alleged patent infringement arising out of the manufacture, use, sale or disposal of supplies or articles furnished under this purchase order, except where such supplies or articles would be normally non-infringing but are rendered infringing by reason of Seller's compliance with Buyer's detail design and stated requirement for specific structure and Seller gives prompt notice of any claim of infringement related thereto.

12. **Patent Rights:** Where payment is made for experimental, developmental or research work, as such, to be performed in accordance with special requirements of the Buyer, Seller agrees to disclose and on request to assign to Buyer each invention resulting therefrom. All proprietary rights embodied in designs, tools, patterns, drawings, information and equipment supplied by Buyer under this purchase order are reserved and their use is restricted to the work to be performed hereunder.

The remedies provided in this section shall be cumulative and additional to any other or further remedies provided in law or equity.

15. **Assignment:** Seller may not assign this purchase order, or any portion thereof, except that Seller may, upon the prior written consent of Buyer, assign claims for monies due or to become due hereunder; provided, in such event, Seller shall supply Buyer promptly with two copies of any such assignments, and provided further that payment to an assignee of any claim hereunder shall be subject to setoff or recoupment for any present or future claim or claims which Buyer may have against Seller.

16. **Subcontracting:** Seller agrees to obtain Buyer's approval before subcontracting this purchase order or any substantial portion thereof; provided, however, that this limitation shall not apply to the purchase of standard commercial supplies or raw material.
